+86 138-0000-0000    zhangsan@example.com  
Based in: Shanghai  
Shanghai / Beijing | Data Analysis

## Summary

Only the master (full-experience) CV needs this section – a job-tailored 1-page version skips it and spends the space on experience instead. 2-4 sentences: education, 1-2 headline achievements, target role.

## Education

**Some University (QS XX)** MSc Data Science Shanghai 2023.09 - 2025.07

- **Curriculum:** Machine learning, statistical inference, database systems, distributed computing
- **Thesis:** Title + one sentence on method/data scale/key finding

**Some University (QS XX)** BSc Computer Science Beijing 2019.09 - 2023.07

- **Relevant Coursework:** Data structures and algorithms, probability, linear algebra, database principles

## Internship & Engagement

**Some Tech Company** Data Analysis Intern · Growth Team Shanghai 2024.07 - 2024.09

- **Bold lead-in + colon:** one sentence on what you did (use strong verbs – "independently built", "led", "designed and implemented" – avoid "Responsible for")
- **Quantified result:** only real, verifiable numbers – if you don't have one, stay qualitative. Never invent a number.

## Research & Project Experience

**Project Title** Shanghai 2024.01 - 2024.06

*Tools/stack used, comma-separated*

- **Method/Design:** what you did and why
- **Result/Validation:** quantified outcome, or a rigorous validation process
- **Impact:** where this result was used, what problem it solved

## Skills & Other

- **Programming & Tools:** Python, SQL, Git
- **Data Analysis:** pandas, statistical modelling, A/B testing
- **Languages:** English (IELTS 7.5), Mandarin (native)
